

AIMS: NSW/ACT BRANCH & NSW SW DIVISION SEMINAR SERIES

AUGUST SEMINAR:

AI in haemostasis and coagulation

ABOUT THE SEMINAR:

The session will also examine the future of AI in pathology, discussing how machine learning could be integrated into routine laboratory workflows as a clinical decision support tool to enhance diagnostic efficiency and guide targeted testing, while complementing — not replacing — traditional confirmatory assays. Challenges, limitations and future directions for AI implementation in haemostasis laboratories will also be explored.

SPEAKERS:

**Mr Mohammad
Altememi**

2IC NSW Health Pathology and PhD candidate at CSU.

DATE
3 AUGUST, 2026

TIME
6:00PM - 7:00PM AEDT
